PROFESSIONAL SUMMARY

Applied AI Engineer who ships production LLM systems end to end. At Reliance I built a RAG framework that scaled Databricks Genie past its 30-table limit to 120+ tables, with a semantic routing engine over table and column metadata. I build agentic workflows with LangChain and LangGraph (CareerOS multi-agent job platform; github.com/gorredinesh21/JOB_APPLICATION_HANDLER-) and FastAPI LLM services with multimodal analysis and grounded retrieval (Tinder AI Coach). Strong Python, comfortable with structured-data extraction and OCR. Looking to own agentic and document-intelligence automation for freight and insurance workflows.

CORE COMPETENCIES

LLM Applications | Agent Orchestration (LangGraph) | RAG & Semantic Routing | Python | FastAPI | Document AI & OCR | Structured Data Extraction | FAISS / ChromaDB | MCP / Tool Use | Prompt Engineering

WORK EXPERIENCE

Reliance Industries Ltd.

Aug 2025 - Present

Graduate Engineer Trainee (Data / AI Engineer) - Mumbai, India

- **Unified Genie (RAG)** - Designed a RAG framework overcoming Databricks Genie's 30-table limit by organizing 120+ tables across 9 Genie spaces, with a semantic routing engine that uses table and column metadata to route prompts to the right space.
- **Intelligent Query Routing** - Built semantic retrieval pipelines over metadata to dynamically select the relevant context - the same retrieval pattern used for grounded document and structured-data lookups.
- **Talk-to-Genie Platform** - Built an external web app integrating Databricks Genie with OAuth authentication for secure conversational access outside Databricks.
- **Near Real-Time Data Pipeline** - Built ADF ingestion pipelines with 15-minute refresh cycles and Landing to Bronze to Silver transformations.

PROJECTS

CareerOS - Multi-Agent LLM Workflow

Built an end-to-end LangChain/LangGraph platform that extracts job postings, scores fit, and generates tailored resumes per posting - agent orchestration coordinating extraction, reasoning, and generation steps.

Python, Flask, SQLite, LangChain, LangGraph

Tinder AI Coach - FastAPI LLM Service

FastAPI app with multimodal Google Gemini photo analysis and an India-context RAG knowledge base; standardizes and optimizes user inputs and writes them back to the live account. Shows structured input handling, grounded retrieval, and production API design.

Python, FastAPI, LangChain, Google Gemini, Hugging Face, Ollama

GAN-Based Data Augmentation

Built a GAN + SMOTE augmentation framework for imbalanced tabular data on a 10M+ row credit-card dataset; recall improved 0.91 to 0.99 with false negatives down to 9 - strong applied-ML and structured-data foundations.

Python, PyTorch, GANs, XGBoost, LightGBM

EDUCATION

B.Tech, Computer Science and Engineering - Indian Institute of Technology (ISM), Dhanbad — Dec 2021 - May 2025

Relevant coursework: Data Structures & Algorithms, OOP, DBMS, Software Engineering, Computer Networks, Deep Learning.

SKILLS

Generative AI: LangChain, LangGraph, Agentic AI, MCP, RAG, FastAPI, FAISS, ChromaDB, Fine-tuning, Hugging Face, Ollama

Languages / Databases: Python, SQL, PostgreSQL, C++, C

ML / DL: Machine Learning, Deep Learning, NLP, OCR, Computer Vision, CNN, Transformers, GANs, TensorFlow, PyTorch

Data Engineering: Databricks, PySpark, ADF, ADLS Gen2, Apache Spark, ETL, AWS

ACHIEVEMENTS

Top 200 of 18,500+ teams - Amazon ML Challenge

AIR 2903 JEE Advanced; AIR 4616 JEE Mains
